The text is easy to comprehend for the novice or professional who needs to design the perfect treatment. As the owner of a drapery workroom, I hand this book to every new employee. Every detail from proportion to fullness is covered in detail.0 of 0 people found the following review helpful. DisappointedBy North Texas GirlNot what I thought I was buying. No construction methods at all. Everything in this book can be found online or at Houzz. I certainly wouldn't called it an asset to a workroom.0 of 0 people found the following review helpful.
