Irene Schampaert : Wonder Plants: Your Urban Jungle Interior before purchasing it in order to gage whether or not it would be worth my time, and all praised Wonder Plants: Your Urban Jungle Interior:

0 of 1 people found the following review helpful. Five StarsBy Marta SzydłowskaThe best book ever. Beautiful pictures, houses, interiors and short interviews.2 of 4 people found the following review helpful. Happy with my purchase! Those thick, non-glossy pages are a nice, unexpected surprise.By C.M.R-V.This is a real treat. The pictures are beautiful and an absolute delight for lovers of plants, interior design, architecture, the color green. The non-glossy, more cardboard-y pages make this book quite different and smell great. It's a great detail for any coffee table you might want to jazz up. I keep it stacked next to other books in a little cart next to my sofa and it just looks great. I'm happy I bought this book.2 of 3 people found the following review helpful. No variations! Indoor plants come in different species, leaf color, and texturesBy radiantlightI am not happy with this purchase, for the following reasons:1. Plants displayed were mostly the same species. Example, schefflera plant2. No variations. Indoor plants come in different species, leaf color, and textures.I would not recommend this book.

Plants as interior design is a major trend in current fashion, lifestyle and design. Includes 80% inspiration and 20% practical tips about variation in size and color, different sorts of plants, and maintaining them. The botanical trend tends to grow' - Style-files.com. Green in your interior is the new trend. Not only growing plants and flowers but also using them as a stylish element in your interior to create the perfect atmosphere. By showing different interiors where plants are the protagonist, this book shows how you can transform your house into an oasis of green. With practical tips to give each plant the perfect spot and an overview of their characteristics.

Wonder Plants is a gorgeous and inspirational study in the incredible impact plants can have on the atmosphere and design sensibilities of a space in this case, 20 incredible and unique work and living spaces from Tokyo to New York and everywhere in between. It's also a valuable reference guide for readers like myself who love plants but know very little about how to take care of them (or even what they're called). (Try Small Things) The arresting photographs in this large-format book prove the adage that a picture is worth a thousand words. (Texas Gardener's SEEDS) About the Author Irene Schampaert is a graphic designer and blogger. She writes about design, colors, patterns, decor, typography and photography.
