**Ivo Pauwels : Wooden Dreams: Poolhouses - Carports - Garden Rooms - Guesthouses** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wooden Dreams: Poolhouses - Carports - Garden Rooms - Guesthouses:

2 of 2 people found the following review helpful. basically a promo piece for a company out of the UK By Venice Artichoke Unfortunately, this book is basically a sales piece for a company out of the U.K. called "Heritage Buildings". I thought it would be a variety of projects by different architects and builders, but it was just photographs of Heritage Buildings in various locations.

In his follow-up to the successful *Life in Oak-Framed Buildings* (ISBN 9789020974799) and *Timber Framed Buildings* (ISBN 9789020959420), author Ivo Pauwels describes the many different realizations of wooden structures - from garages and terraces to garden sheds, pool houses, guest houses and home offices. Timber-framed buildings are becoming increasingly popular across Europe, and this book provides an excellent source of inspiration, illustrating a traditional building style combined with a modern way of living, working and relaxing.

About the Author Ivo Pauwels is the author of over fifty books on interior design. Interior photographer Henny van Belkom is known for his work for interior magazines such as 'Home Garden'.
