I would recommend this book0 of 0 people found the following review helpful. Five StarsBy Tina JoynerExactly what I was looking for!!

Nothing enhances the comfort and good looks of a backyard or deck more than well-made outdoor furniture. Home carpenters of every skill level will find projects here to fill every family need, from the Frame-style Sandbox, made

entirely of 2 x 4s in a single day, to the Potting Bench, complete with rolling cart, water supply, and sink. The beginner will appreciate the simplicity of the Basic Adirondack Chair, with its squared-off forms, while the more experienced woodworker will go for the Advanced model, with its elegantly curved contours. There is complete information on such important subjects as counterboring and plugging to conceal screw heads, the best woods for outdoor use, and the proper finishes to preserve the completed projects.
