**Diane Maddex : Wright-Sized Houses: Frank Lloyd Wright's Solutions for Making Small Houses Feel Big**  
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Wright-Sized Houses: Frank Lloyd Wright's Solutions for Making Small Houses Feel Big:

6 of 6 people found the following review helpful. Wonderful for Modern-day small homesBy Kathleen Peron RindenAs one who is a big fan of Frank Lloyd Wright and lives on a small Bungalow home, I found this volume full of helpful, creative, and inspiring ideas. The book has many photographs which reference the Usonian homes of FLW and is filled with new interpretations for the homeowner of today. If you have challenges with space and want to get some solutions to your issues, yet keep true to your love of simple, functional design, this is a wonderful resource for you!1 of 1 people found the following review helpful. An excellent addition to our collectionBy Cindy B.I bought this as a gift for my HB ... who was more FLW books than I can count at this point. (Almost all of them purchased by me over the years for birthdays, anniversaries, etc.) We're starting to run out of material! This book is significantly different than those that are focussed purely on the architecture, discussing much more about the materials FLW used and how the design elements affected living spaces. The photographs are beautiful and the text is well written. I'm glad I found this one!0 of 0 people found the following review helpful. Five StarsBy David A. Becknervery good book and price

Offering insight into the famous architect's career-long focus on small, moderate-budget houses, a tour of his small-house designs includes coverage of such structures as the Stockman House, a recently restored Prairie house based on his "Fireproof House for \$5,000" design, and the Peterson Cottage.

About the AuthorDiane Maddex is president of Archetype Press, and helped launch and later served as director of the Preservation Press, the book publisher of the National Trust for Historic Preservation.
