Jamie Cosley : Zucchini the Snowman before purchasing it in order to gage whether or not it would be worth my time, and all praised Zucchini the Snowman:

0 of 0 people found the following review helpful. Buy this book!By Kindle CustomerMy daughter loved this book! She is 7 and read it to me over and over and over... and then she trapped our friends 2 year old and read it to her too. She is ready to visit with Zucchini and his friend, Avery, when the next one comes out. Well written and great illustrations. It's a winner!0 of 0 people found the following review helpful. My children loved it!By Z.

TuckwillerZucchini is a fun story about a girl and her desire to keep the excitement of winter around all year. My children (seven, four, and two) stayed engaged in the story while I read, and it's an easy enough read for my oldest daughter (a first grader) to read independently or to her siblings. Well done!0 of 0 people found the following review helpful. Fantastic tale of a girls' creation of a snowmanBy Kindle CustomerThis is such a sweet story about a little girl making her OWN dream come true- a snowman that she grew in the garden. Great story, beautiful,descriptive illustrations.

Avery loves the snow more than anyone I know...but perhaps her new friend loves it a little bit more? Kids will be saving snowballs in the freezer after reading the adventures of Zucchini the Snowman!
